Re: **Participation in Professional Colleges**

As the Chief Nursing Officer and a Registered Nurse, I want to encourage nurses from all settings to consider participation in your respective professional college. Opportunities may exist to sit on committees or run for Council.

I have had the opportunity to participate on a committee and also on council. These were personally rewarding experiences that led to professional growth on my part. By putting your name forward you will have a voice and also will receive professional and personal growth.

The Nova Scotia Health Authority supports and encourages our employees to be involved; please refer to your respective college web site to seek out opportunities.
